🪪 SUMMARY

Full-Stack Developer with hands-on experience in the MERN stack and Django REST Framework, specializing in building scalable RESTful APIs, JWT-based authentication, and database-driven web applications. Strong foundation in backend development, performance optimization, and Git-based collaboration. Seeking an entry-level software or backend developer role.

💼 WORK EXPERIENCE

Full Stack Developer Intern, *Auratech* ☑   12/2025 – Present
                                                                              Jaipur, India
- Developed and maintained 15+ RESTful APIs with Django REST Framework to support scalable backend services.
- Implemented JWT-based authentication and role-based access control to secure user and admin workflows.
- Integrated frontend components with backend APIs, ensuring smooth data flow, validation, and error handling.
- Collaborated via Git and GitHub using pull requests and code reviews, following industry-standard workflows.

🎓 EDUCATION

Bachelor of Technology (Computer Science), *Global Institute of Technology*   08/2022 – 06/2026
CGPA: 7.5 / 10   Jaipur, Rajasthan

Higher Secondary Education (12th), *St. Xavier's College*   07/2020 – 04/2022
GPA: 7.91 / 10   Dumka, Jharkhand

🧠 TECHNICAL SKILLS

Programming Languages
JavaScript (ES6+), Java, Python

Frontend Technologies
HTML5, CSS3, React.js, Bootstrap, Tailwind CSS

Backend & APIs
Django REST Framework, Django, Node.js, Express.js

Database Systems
MongoDB, MySQL

DevOps & Cloud
Render, Git, GitHub Actions, CI/CD Pipelines

Development Tools
VS Code, Postman, npm, Thunder Client

📁 PROJECTS

PG Management System (Backend – Django)   12/2025 – 01/2026
- Developed a production-ready backend application using Django and Django REST Framework with secure CRUD APIs and JWT-based authentication.
- Designed and optimized MySQL database schemas with input validation to ensure data integrity and efficient data retrieval.

SonyCom (MERN Stack), *Link* ☑   03/2025 – 04/2025
- Built a full-stack social media web application with React, Node.js, Express, and MongoDB, integrating RESTful APIs.
- Implemented JWT-based authentication and responsive UI components.
- Deployed the application using Git-based CI workflows.

⭐ TRAINING & CERTIFICATIONS

Full-Stack Developer Trainee (Apna College), *Certificate* ☑   02/2024 – 06/2024
- Built and deployed full-stack web applications using the MERN stack.

OCI Generative AI Foundations (Oracle University), *Certificate* ☑   07/2025 – 08/2025
- Learned prompt engineering and the deployment of generative AI models on OCI.
